## PROJECT'S

### DRIVER\_LOCKER

07/2025

**Driver\_Locker** is a full-stack application developed using **React.js** and **Spring Boot** that allows users to **log in**, **store files**, and **manage a private folder secured by a secret code**. It supports **file uploads**, **secure sharing**, and **access control**, with backend integration through **JDBC**, **Hibernate**, and **SQL**. The interface is built with **Tailwind CSS** for a clean, responsive experience.

**NewsPage** is a React-based web application that allows users to **register, log in, and view personalized news content**. It features **JWT-based authentication** to ensure secure access. Users can **customize their news feed** based on interests or categories, providing a tailored news-reading experience through a clean and responsive interface.

## INTERNSHIP

**RENU SHARMA FOUNDATION** 

07/2025 – present

### Web Developer

- **Currently working as a Full Stack Web Developer at Renu Foundation**, receiving a monthly stipend for a **3-month internship**. Contributing to both **frontend and backend development**, actively involved in building and improving real-world web applications.
